

Epic Research HealthStream Training Access

<https://myaccessps3.partners.org/EpicAccess>. The request must be submitted by a supervisor on the user's behalf.

To have the Research training modules added to the user's HealthStream "To Do" list, the submitter should select (see screenshot below):

1. "Research" as the Job Family
 2. "BWH Research Staff" as the Job Type
- AND**
3. "BWH Research Study Staff" as the Epic Role

The screenshot displays the 'EPIC - TRAINING / ACCESS REQUEST FORM' interface. The top navigation bar includes the 'PARTNERS' logo and the site name 'SITE: BRIGHAM AND WOMEN'S HEALTH CENTERS'. The main content area is divided into two sections: '1 SITE AND USER SELECTION' and '2 EPIC - ROLE SELECTION'. In the 'SITE AND USER SELECTION' section, there are dropdown menus for 'Select Site' and 'Select Practice'. The 'Select Users' section includes a search criteria dropdown set to 'PHS User ID' and a search button. Below this, there are two empty tables for 'Search Results' and 'Selected Users'. The 'EPIC - ROLE SELECTION' section has radio buttons for 'Add New Epic Role(s)', 'Replace Existing Epic Role(s)', and 'Deactivate Existing Epic Role(s)'. Under 'Search and Select Epic Roles', the 'Find Role By Job Family/Job Type' option is selected. At the bottom, three dropdown menus are highlighted with red boxes: 'Job Family' is set to 'Research', 'Job Type' is set to 'BWH Research Staff', and 'Epic Role' is set to 'BWH Research Study Staff'. A 'Reset All Fields In Form' button is located in the top right corner.
